Ten Films Available At Stirling Public Library During February

The following ten films will be at the Library during the month of February only:

"Above the Timberline", 16 min., colour — This film explores the Alpine tundra zone and brings to the screen close-up pictures of the flora and fauna which survive in extremes of altitude and cold.

"Farm Babies and Their Mothers", 10 min. — This film introduces the farm animals, gives the names of their young, and pertinent facts about their habits and their importance to man.

"School Bus Safety", 23 min. — Although intended for High School students, with whom it is popular, this humorous approach to a serious subject should be seen by every pupil and used by every teacher. Safety messages in delightfully acceptable form.

"Should You Drink?", 22 min. — This film is designed to promote discussion and self-analysis, to focus attention on the importance of each person making an honest and intelligent decision about the use of alcohol.

"Music From Montreal", 29 min. — The Montreal Bach Choir in rehearsal. You hear a performance of Bach's Christmas Oratorio and see George Little, the director.

Morning on the Lievre", 14 min., colour — The beauty of a canoe trip into the Lievre country accompanied by the charm of Archibald Lampman's poem and Eldon Rathburn's music.

"Everybody's Prejudiced", 22 min. — Designed for discussion. From the man who rejects eggs with some reason, to the man who hates new neighbours for no reason, this film offers examples that everyone will recognize and wish to discuss.

"Animal Movie", 10 min., colour — A light-hearted study of what a boy discovers about the way various animals move, and his attempt to imitate them.

"Labour College, 23 min. — A student's view of a Trade Union Summer School, organized for industrial workers by the Labour College of Canada with the help of the University of Montreal and McGill University.

"Selkirk of Red River", 28 min. — A history film showing Lord Selkirk's struggle to establish his colony at Red River, The Battle of Seven Oaks and Selkirk's run-in with the North West Company and his final triumph. As well as these films, 26 others will be on hand until the middle of June. For those with catalogues, the deposit block numbers are BD 51 and BD 73, and the Film Council is justifiably pleased with the variety of titles. Entertainment, discussion, instruction, all are represented. If you want a full night of films, or to pad a wobbly programme you had planned; if T.V. is stale and you would like a fun-night with your friends, try a film membership.

Many more new books are on hand, and we will give out some titles next week.

The "Story-Hour" is a continuing success; the Friday night films are well attended; and if you cannot find the book you want, we will try to get it for you. Happy Reading.

Us Kids Again

Over thirty Senior Citizens enjoyed their meeting last Thursday. Pres. George announced that we are now in full membership in USCO Inc. and have our certificate to prove it.

Get well cards were sent to Chas. Hicks and Blanche Reid. Charlie is one of our most frequent and welcome visitors and Blanche is our Domino Queen. We wish both a speedy recovery.

In our last column, Editor Bob goofed on the punch line of one of our jokes. We repeat it in the hope that Lorna is well again and back on the key panel. You may slip once in a while, Bob (but Lorna doesn't).

Here's the way it was to be — Fred Heasman says: "Why a man would want a wife is a mystery to some. Why he should want two or three is a bigamystery."

Thanks, Lorna. No apology needed, Bob.

Quickies
People whose aim is high in this world may misfire in the next.

About the time one learns how to make the most of life, the most of it is gone.

Most girls are looking for a man who is tall, dark and has some.

Many of the people favouring birth control have already been born.

Well — Mrs. Geen and Mrs. Foster served a lovely lunch and then all slipped over the ice, homeward bound. It is reported that Evelyn fell but was not hurt. The ice was made of soft water and besides she had on a Spring suit.

I.O.D.E. 68 Years Old

The I.O.D.E. (Imperial Daughters of the Empire) will celebrate its 68th birthday on February 13th.

During our Centennial year all loyal Canadians thrilled with pride as Canada's achievements were extolled and made known.

The I.O.D.E. has aided immeasurably in many ways to give lustre to our country's proud record. The results of the work accomplished by this National, Canadian organization, comprised of over 27,000 members, carry Canada's name to all corners of the globe.

In the field of Service, the I.O.D.E. shared \$493,682 with Canada and the developing nations. \$363,402 was spent in Canada and \$130,280 overseas. This was an increase of \$46,500 due to a special effort made dur-

ing the last year to expand the output as the Order's contribution to International Co-Operation Year.

A new X-Ray machine is being provided at an approximate cost of \$19,000 for Korea where the incidence of T.B. is very high. This will replace a previous one donated twelve years ago.

This year five hundred and forty-six (546) cases were shipped to the emerging countries and contained such articles as handmade quilts, sweaters, baby clothes, afghans, socks, etc., all of which represent incalculable hours of work by the members across Canada. Countless hours of service are given to the Blind, Retarded Children, Cerebral Palsy, work in hospitals, Blood Donor Clinics and Canadian Indian Friendship Centres.

The work with the native Indian and the Metis people continues to expand. Close contact is maintained

with the Friendship Centres. Food, clothing, games, musical instruments and furnishings are provided for their use.

Immigrants are met at ports of entry. Members give assistance where needed in order to help them to adjust to their new environment, and Citizenship Receptions are sponsored.

Over \$341,000 is spent on education and the work and interest in this field continue to increase each year.

Fifty-six schools and ten hostels in the Northwest Territories have been adopted by the chapters; thirty-two schools in Northern and Southern Labrador, and eighty-four remote and isolated schools in Newfoundland. In addition to 5516 other schools in the remote areas of Canada, the I.O.D.E. has adopted secondary schools in the West Indies and British Honduras.

Five "Incentive Awards" of \$100.00 each were given to the Vocational Centre at Churchill, Manitoba, for Eskimo students, to encourage them to return to school for further education.

I.O.D.E. members in the past year have assisted Sheltered Workshops, Schools for Handicapped, Retarded and Emotionally Disturbed. In addition, books were translated into Braille, resonant instruments were given for the band in a school for the Deaf.

The work of the Commonwealth Relations Department is done mainly in education. This year two undergraduate students are studying medicine at Indian Medical Colleges. One student from Barbados is taking a post-graduate course in Canada.

Approximately \$60,000 was awarded from I.O.D.E. First and Second War

Memorial Funds to provide post-graduate scholarships of \$2,000 each (for study in Canada) and \$3,000 each (for overseas study).

The I.O.D.E. members' awareness of the many problems confronting the world today, is evidenced by their dedication, enthusiasm, and willingness to help when and wherever needed.

Provincial Chapter of Ontario

I.O.D.E. Chapters throughout the Province of Ontario participated wholeheartedly in our country's birthday celebrations.

Large shipments of clothing and knitting were again sent overseas, and a total of \$199,356.15 was spent in Services at Home and Abroad.

Christmas parcels were air dropped to 17 remote Nursing Stations in the Northwest Territories, including Pond Inlet, 500 miles beyond the Arctic Circle. There are 30 children at each station, from 6 to 14 years of age.

Junior Chapter members enthusiastically supported a "Trans-Canada Penny Line" project to supply books to Dominica. The number of junior chapters has been substantially increased from 21 to 30 chapters during the past year.

First and second prize awards of \$250.00 and \$50.00 respectively were given to encourage creative writing.

Four post-graduate scholarships of \$3000.00 each were awarded from the First and Second War Memorial Fund to Ontario scholars. A total of \$161,311.77 was spent in Education by Ontario chapters last year.

As a Centennial project, Ontario

chapter members sponsored a tremendously exciting and successful tour of the Province by twenty-four Grade XI boys. The balance remaining in the Centennial Fund will be offered as financial assistance to a son or daughter of a non-treaty Indian to aid in the attainment of higher education. This assistance will be given in the spirit of completing the Centennial project by making a beginning for Canada's second century.

Mrs. Roy Tucker gave a paper on the theme which stated that "Farm-segregated cream in the manufacture of butter is unprofitable." The Ontario Department of Agriculture and Food have given several recommendations to make farming operations more profitable.

Mrs. Tucker also read an article from "The Countrywoman Magazine" and the Pennies for Friendship were gathered.

Mrs. Gerald Brooks gave a descriptive account of how names were chosen for various places in Sidney Township. Mrs. Roy Irwin read an informative clipping on "Home Economics".

Mrs. Percy MacMullen read a message of thanks from the Hon. Secretary Margaret Thompson, of Abbot's Leigh W.I. in England, for the Christmas gift of books. She displayed her copy of the F.W.I.C. book, "A Heritage of Canadian Handicrafts". The price is five dollars to Institute members and can be ordered from The National Office, 46 Elgin St., Ottawa 4, Ontario. She asked the members to sign two Valentine cards for members who are ill. She extended congratulations to Mrs. Roy Bush who recently was awarded a Centennial Medal, and she announced that the annual meeting of Hastings West District will be under the auspices of Uniondale Branch and the date is Thursday, May 9th.

The 4-H Club leader, Mrs. Gerald Brooks, gave an outline of the new project, "Accent on Accessories" and demonstrated the work of this department.

The correspondence included letters of thanks for cards received, a letter from the Provincial President, Mrs. Everett Small, and a message re the Officers Conference at Guelph. It was decided to forward thirty dollars pooling fee for the Officers' Conference, April 30th and May 1st at Guelph. The member to attend will be decided at a later date.

Three donations of ten dollars each was made to the following: First, to assist the Institute in Northern Canada. This work is in charge of F.W.I.C. and they hope each Branch across Canada will contribute and thus help provide adult education and other necessary assistance.

Second, The Gift Coupon programme in Columbia for child care and a Home Improvement Training Centre. This is sponsored by The Food and Agriculture Organization of the United Nations, "Freedom From Hunger Campaign". Caldas, with its capital, Manizales, lies in the centre of Columbia. Here a variety of fruits and vegetables are produced in large quantities but the mothers lack knowledge of the basic food requirements for their children. The Agricultural Extension Service has organized several Women's Clubs in this area and the purpose of this Gift Coupon Project is to establish a training centre in Villa Maria and a Home Economist will supervise this centre. Third, For the 75th Anniversary Fund of MacDonald Institute, Guelph. It will be remembered that through the efforts of Adelaide Hoodless, MacDonald Institute was founded in 1903 and now F.W.I.O. are aiming to expand and develop the Institute in the next four years and thus honour the founder on February 19th, 1972, as the 75th anniversary of her birth.

In Mrs. Small's letter, she stressed Pennies for Friendship as the life-line of The Associated Countrywomen of the World where the work is carried on internationally.

The 1968 theme for safety is "Prevention of Fire and Machinery Accidents". This year no safety convener will be appointed and it will come under The Home Economics and Health Department of work.

The A.C.W.W. will hold its Triennial Conference at Michigan State University in September.

When the quilt was partly completed, the President, Mrs. D. Heath, called the meeting to order by reading a poem "Friendship is Like a Garden."

Mrs. H. Holden led in worship using as her theme "The Christian Woman in the Home". The scripture was the last chapter of Proverbs. Mrs. Holden read a poem "Shining the Shoes."

Also a letter from Africa. Mrs. M. Cooney led in prayer. The hymn, "Happy the Home When God Is There" closed the worship service.

Roll call was answered by twenty-three members paying their fees. Six

Mrs. Small closed her letter with this quotation: "May each one of us stand upright in our lives and try to discover beauty and service in others."

There will be the usual card parties and also a pot luck supper. Read under the Institute Crest for particulars.

Mrs. Norman Rosebush will be hostess for the March meeting, based on The Tweedsmuir Book. The roll call brought several ideas for old age Programme.

Mrs. Roy Irwin presided over the programme and read a brief message. Mrs. Roy Tucker outlined the motto and Mrs. Norman Rosebush read a special article. Mrs. Allen Wells, Stirling, introduced the Hastings County Public Health Nurse, Mrs. Barbara Jones. She gave a graphic description of her work in the homes and schools. Children are taught to be responsible for their own health problems and child health is most important. The Public Health nurse has many duties in the community and she is in charge of conferences and clinics.

All of the tuberculosis patients in the County are given medical advice. She also promotes the need of immunization clinics and uses every opportunity to encourage safety in the homes. Mrs. Jones also had a large selection of free material for the members to choose for their own needs.

Mrs. Ernest Carr expressed thanks for the very educational message on health and made the presentation of a small gift.

The meeting closed with the Institute Grace after which the refreshment committee served a variety of fruit breads and cheddar cheese.

Mrs. Sheldon McIntosh voiced thanks to all who had contributed to the success of the afternoon.

Quitting Party At Bethel U.C.W.

The monthly meeting of Bethel United Church Women was combined with a quitting party at the home of Mrs. S. Brady.

When the quilt was partly completed, the President, Mrs. D. Heath, called the meeting to order by reading a poem "Friendship is Like a Garden."

Mrs. H. Holden led in worship using as her theme "The Christian Woman in the Home". The scripture was the last chapter of Proverbs. Mrs. Holden read a poem "Shining the Shoes."

Also a letter from Africa. Mrs. M. Cooney led in prayer. The hymn, "Happy the Home When God Is There" closed the worship service.

Roll call was answered by twenty-three members paying their fees. Six

small children were also present. The sum of \$15.00 was voted towards the Lay Foundation. Plans were made for a pot luck dinner in February.

Rev. W. C. Cox conducted the service for the installation of the officers for 1968.

Mrs. M. Johnston, Mrs. E. McKeown and Mrs. W. Cox gave very interesting reports of the Presbyterian meeting of the UCW held in St. Paul's Church, Stirling.

The hostess and committee served a delicious lunch and a social half hour was enjoyed by all. Mrs. Don Heath thanked the hostess and those helping in the afternoon's program.

OF MANY THINGS

By Ambrose Hills

WEANING L'L BRONCHO

Last week we weaned our little stud colt, and halter-broke him at the same time. He took a dim view of the whole enterprise, and his mother, Golden Dawn, stood near the barn door and screamed as if she thought we were murdering the little devil. L'L Broncho is over it now, however, and appears to hold no grudges. His mother is beginning to get a layer of fat on her ribs. He's a husky colt and our farrier, Tom Minnis, estimates that he was gulping about thirty pounds of milk a day — quite a drain, even on a sturdy mare like Golden Dawn.

She came through it very well though, thanks to heavy feeding of complete horse pellets. The pellets, manufactured by a firm in Fort Langley, Rogers & Boyds, contain everything a horse requires — a blessing this Fall, with hay so scarce and expensive. We still feed a little hay, for roughage, but some horse breeders in the valley are getting by just fine without it.

Here at Greenhorn Farm, with animals to care for, a garden to rototill, and three pastures to trim and cultivate, we scarcely felt a twinge when the word came through that there was panic on the gold market. It is difficult to be concerned about gold when the fruit closet bulges with vegetables and preserves, and our young steer is growing bigger roasts and steaks each week.

Let them sit on their cruddy hordes of gold! As long as the soil is fertile and the springs give plenty of water, we'll eat whether we have gold or not. And if the worst comes, we can always dig an ounce or so of gold from the banks of the Fraser River, not too far away.

When the leaves of the white poplar show their silver lining, look out for rain.

A twenty-five-year-old Belleville man sustained concussion and facial lacerations as a result of an accident January 27th. The two-car crash occurred one and one-half miles south of Moira Lake on Highway 62. Damage to the vehicles involved was estimated at a total of \$3,000.00.

Also on Saturday a young Queensboro woman had a narrow escape when the car she was driving broke through a barricade at the bridge on the Black River at Queensboro and plunged down an embankment coming to rest just inches short of the river.

On January 23rd, Provincial Constables Brown and Young were dispatched to investigate a traffic accident which had occurred at the Cooper Store. One of the vehicles involved was immediately recognized as a stolen car from Belleville and the driver and passenger were arrested and turned over to the Belleville Police Department.

On January 25th, 28 hours were spent in Magistrate's Court, with 39 convictions obtained. Magistrate R. C. Jackson was presiding and Mr. Glen Deline represented the Crown Attorney.

Rylstone Institute Members View New Community Hall

Some members of Rylstone Women's Institute went on a tour of inspection at their new Community Hall (the former Rylstone Union School) recently. Not many braved the slippery roads, but the ladies were well pleased with their purchase and anticipate having meetings there in the near future.

Meeting Held At Home
Mrs. Ernest Irwin

A short business meeting was held later at the home of Mrs. Ernest Irwin. Roll call was "name a flower that blooms on your birthday."

Short Course On
"Baking With Yeast"

Mrs. Stanley Kerr was hostess to the Institute at her home on Wednesday last when she and Mrs. Don Kerr were leaders for the short course on "Baking With Yeast". About twenty ladies were in attendance and all voted the day a decided success. All enjoyed a pot luck dinner at noon.

The February meeting of the Rylstone Women's Institute will be held at the Institute's new Community Hall on Tuesday, February 6th. The District Annual Meeting of North Hastings Women's Institutes will be held at Rylstone in May.

planning to
modernize
your home,
here's the place
to begin.**

Modernizing your home can be a delightful experience. Home improvements can do a lot to help make your way of living better than ever. But before you start to modernize, you should take care of one thing first: your household wiring.

If you begin your modernization programme by re-wiring, almost everything about your home will suddenly seem better. You'll have all the electrical outlets you need. Your appliances will perform better, and you can add all the new ones you're ever likely to need without the annoyance of overloaded circuits or blown fuses. Re-wiring will let you take advantage of the new ideas in household lighting. With decorative exterior lighting you'll be able to enjoy patio living on pleasant summer evenings. You will, in fact, be opening the doors to the joys of all-electric living, including the quiet comfort of electric heating. Start modernizing your home by re-wiring.

MRS. ELIZA JANE SEELEY

A number of friends from Ivanhoe district attended the funeral of the late Mrs. Eliza Jane Seeley held at the Grant Funeral Home, Belleville, on Friday, February 2nd.

Mrs. Seeley resided at Ivanhoe for a number of years and was its oldest inhabitant.

She was a much loved neighbour and shared in the joys and sorrows of her many friends.

Since residing with her daughter, Grace, in Maryfield, Sask., she has kept her friendships in repair by letters and greeting cards.

In spite of her great age, she maintained a keen interest in family, community and world affairs. She will be long remembered with warm affection by a host of friends.

The sympathy of this community is extended to her sorrowing family.

Rebels Hit Skids

The slumping Stirling Rebels sustained their third and fourth consecutive losses in a pair of C.H.L.L. tilts with the red-hot Frankford Shoemen over the week end, who moved to within a single point of the fourth place Rebels.

The injury-ridden Stirling team suffered more, as team captain Ken McConnell and Elwood Moore came up with knee injuries Saturday night and missed Sunday's tilt. Pete Boxlak, Larry Bertrand, Brian Bertrand, Don Potts, Les Pyear, Glenn Spencer and Larry Jeffs missed both week end games while Gary Mason and Ted Dobson didn't appear in Saturday's lineup.

Saturday night the Rebels never got untracked and the Shoemen walked off with a convincing 9-0 verdict.

Sunday night, however, the Shoemen had to battle the distance for the nod in points. Gary Mason collected a pair of goals for the locals while Bob Noble and Don McCrory also scored.

Standings — Ivanhoe 53, Bala 35, Cloyne 30, Stirling 19, Frankford 18, Foxboro 11, Wallbridge 7, Thomasburg 5.

George B. Noble To Again Head Chamber of Commerce During 1968

Robert Carleton, The Area Manager of Bell Telephone Was The Guest Speaker

The annual meeting of the Stirling Chamber of Commerce was held at Hum's Restaurant on Thursday night of last week. The meeting got underway at 6.30 p.m., with a delicious turkey dinner.

President George Noble chaired the meeting. Secretary-Treasurer Guy Bradshaw gave the financial report, showing a bank balance of \$53,736, with all accounts paid. There were 38 members of the Chamber in 1967.

The following slate of officers was presented for the year 1968:

President — George Noble
Secretary-Treasurer — Guy Bradshaw

1st Vice-President — Dave Duffin
2nd Vice-President — Graham Mouch

3rd Vice-President — Wiegert de Jong

Directors — Basil St. Pierre, Ted Cairns, Jim Edgar, Les Rawlings.

It was announced that at a recent Directors' meeting it was decided to continue the dinner meetings at Hum's Restaurant.

President Outlines Program For 1968

President Noble outlined the program of the Chamber for 1968. The main objective will be to improve Stirling. Some of the projects suggested by the President are:

1. A cover over the centre foot bridge with benches along the sides.

2. Cement flower pots along the business section.

3. Install benches in the downtown area.

4. Creek clean-up.

5. Hope to renew old swimming pool.

The President noted that the Directors have decided to drop the Fair Parade this year and plan to hold a soap box derby some time during the summer months.

Tribute was paid to Mr. J. B. Belshaw, who recently was honoured with a Centennial Medal.

Harold Bird expressed thanks to the Directors for a job well done during the past year.

Bell Telephone Area Manager Guest Speaker

Mr. Robert Carleton, Trenton, Area Manager of the Bell Telephone Company of Canada, was the speaker of the evening. He was introduced by Reeve D. W. Rodgers. Following is his address:

The topic I have chosen is one of considerable importance in maintaining a high standard of telephone service to the customers we serve.

I know perfectly well that none of you are suffering from a lack of meetings. But because of your great interest in community affairs — you have come. And for that, may the Stirling area be thankful.

Bell Canada is deeply involved in future plans for its operations in Ontario and Quebec. The areas of direct world dialing and the Picture-Phone,

City Drivers !!

Herb Wall advises that the tire tracks on his lawn at Front and James were not made by him.

When company arrived on the week end from Toronto, Mrs. Wall met them at the front door and signalled in the general direction of the driveway for them to pull in there.

The driver backed up, squared off, took a run at it and mounted the two-foot cement retaining wall.

Although Mr. Wall served during the war with the driver in the Postal Corps, he is under the impression that he must have had Tank Corps training somewhere along the line.

which allows telephone conversationists to see each other while talking, are already on the horizon. In fact, in certain locations, they are in effect now.

There may be some who feel that great economic and social changes will not come to this area — but in the long run — changes, like death and taxes, are bound to occur. No one here may want to go out on a limb to say just what these changes will be — but I'll go out on one this far: if any of us could be right here 100 years in the future, the changes we would see would be more fantastic than those which have occurred in the 100 years since 1867.

Our Centennial Year of celebrations has become history now but in 1867 there were no telephones — and we might wonder just how the Fathers of Confederation got along without them or how would our Fathers of Re-Confederation have made out this past week.

To give some indication of the acceptance of the telecommunications world in this part of the province, let me say that your local telephone story began here in 1886 with local service only, then in 1888 long distance was made available — and that was just 71 years ago — and we all know how different life is today than it was in 1886. People like yourselves in the Chamber of Commerce and other community organizations of Stirling are similar to the men behind this community's first local telephone service demand. How amazed at how the telephone has branched out to provide related services to people here and elsewhere in the world, they would be today.

By the turn of the century, telephone facilities improved — and Bell Canada proudly advertised that "direct telephonic" communications can be had with all principal cities, towns and villages in Ontario, Quebec and the United States within a radius of 1,000 miles.

Today, as you know, customers can reach virtually any point around the globe.

Your community was one of the earliest to become automated, when in 1940, you were provided with dial service and the voice with a smile or a number at her finger tips disappeared.

Local Post Office To Be Renovated

Extensive alterations to the Post Office building, at Stirling, will be undertaken shortly and should be completed by March 21st.

Postmaster Herb Wall points out that although everything possible will be done to avoid the inconvenience to boxholders, it may be necessary to close the front door at 6.30 p.m. for a period, as with the partitions removed it will not be possible to lock off the working space of the office when no staff is on duty.

The tender contract was awarded to Ralph Johnson, West Huntingdon.

is the telecommunications industry, and has come to be as much of a social one as it has been economic. New social conditions make it not at all uncommon for people to live in one community and work in another, attend schools and churches in other communities. These, together with the spread in rural living, have created a steady demand for the removal of long distance charges between adjacent communities. Mother wants to be able to call Dad and tell him to bring home a loaf of bread, or Betty to receive a call from her boy friend or call a girlfriend. They do not want to have to pay toll charges in order to carry on what they today consider a normal life in 1968.

Some of you may already be familiar with the term "extended area service", or EAS as it is called in its short form. For those of you who have not heard of it, it means "the broadening of the area in which a telephone subscriber can make telephone calls without paying long distance charges."

Let us say that a situation occurs where two communities, X and Y, have grown to a point where the residents are coming more and more into contact with one another. As a result, it can be said that communities X and Y are beginning to develop common interests.

High School Dance Highly Successful

The Annual "At Home" Dance of the Stirling High School took place in the school gymnasium on Friday night last, when a good crowd was entertained by the pupils and members of the staff. The gym was artistically decorated in a Japanese Garden theme and presented an atmosphere of friendship and enjoyment.

Music for the occasion was furnished by the "Dixie Five Plus One" orchestra and dancing was enjoyed by all.

Queen and Her Princesses

During the evening, Miss Suzanne Murray was crowned Queen and the Princesses were Eleanor Shortt, Jo-Anne Montgomery, Cheryl Stapley, Barbara McPaul and Linda Johnson.

Their escorts were Earl McPaul, Lee Pyear, Don Potts, Russell Hagerman, Larry Jeffs and Garry Bateman.

A buffet supper was prepared under the direction of Misses Suzanne Murray and Brenda Williams, assisted by several pupils.

The guests were greeted by Principal and Mrs. J. L. Lambert, Mrs. David Bell, Honourary President, and Mr. Bell, Earl McPaul and Connie Tucker, Suzanne Murray and Barry Pyear and Mr. and Mrs. Harry Morrow.

In all, the members of staff and pupils, sponsored a most enjoyable evening and those in attendance thoroughly enjoyed themselves.

Good Old Ontario

Last Thursday, about thirty Senior Citizens, all born in Ontario enjoyed their games and were treated to a lovely lunch by four Ontario-born girls, Gladys Elliott, Gertrude Belshaw, Mina Smith and Margaret Ward.

Our Vice Pres. Fred Heasman (one of Ontario's best) was appointed to act on Recreation. Look out, folks, he may even have us doing push-ups.

You have all heard how down in Texas they blow about everything there as big. Let's blow our own horn here in Ontario. Do you know that Ontario is 412,582 square miles and that is half as big again as Texas.

Ontario is comparable to the combined areas of France, Germany, Great Britain and Belgium. It is about 1000 miles in length and also in width. We have about 85,000 miles of roads, 10,000 miles of railroad network and 130 licensed airports.

Summers are sunny with warm days and cool nights, while Winter is long and nice and cool. About seven and a half million people live in Ontario. The queer thing is that when it's nice and cool here, many leave to go where it is warm. Then again, when it's nice and warm here, many go to the lakes or up north where it is cool. But did old Sordie notes they all seem to be glad to get back. We've got everything right here where we live. Let's blow about it and enjoy it. Let us also be thankful that we have one of the best Senior Citizens' Clubs in the nicest village in GOOD OLD ONTARIO (The best province of them all).

People going and coming remind me of the two hunters who went bear hunting. They came to swampy ground and there, plain to see, were paw prints of the biggest bear you ever saw. Examining the tracks to see which direction the toe nails pointed, one hunter said to the other: "You go ahead and see where he went. I'll go back and see where he came from."

The President, Mrs. Kenneth Tompkins, opened the meeting with a reading from the Psalms, followed by prayer.

Mrs. Fred Beckett took charge of the worship service and Mrs. Keith Clancy read the Scripture Lesson from Romans.

The theme of the meditation was "Our Christian Hope". In answer to Christ's call, the Disciples were drawn to Him by a desire to learn more and to enjoy His companionship. As understanding grew, they felt the divine power that made Him Friend, Lord and Saviour. The devotional closed with prayer and a solo by Mrs. Jim Pollock, "My Hope Is Built On Nothing Less". The roll call was answered with a verse of Scripture containing the word "hope".

Mrs. Tompkins reported from the workshop held at St. Paul's on January 10th.

Rylstone W.I.

On Tuesday afternoon, February 6th, the members of Rylstone Women's Institute held their first meeting in their new Community Hall. There were 17 ladies and one little girl present. There were several visitors present.

Mrs. Lindsay Anderson, President, was in charge of the meeting which opened with the Institute Ode and

Creed. The roll call was answered by "A Product Made With Milk" or "My Favourite Cheese Recipe".

The President or a member to take her place, will be delegated to attend the Officers' Conference, at Guelph, in June.

Several cups and saucers were donated by Mrs. Cora Reid and Mrs. Frank Osborne. Other donations have been promised. All donations will be thankfully received as the

Hall is unfurnished yet, except for a few chairs and card table, recently purchased. Mrs. Donald Kerr gave Current Events and the rest of the afternoon was spent in planning for a Family Night, March 26th, also plans for decorating the Hall, etc. Plans are also underway for the North Hastings District Annual Meeting for which Rylstone members will be hostesses in May. (Continued from Page One)

When it becomes apparent that the residents there have reasons to make frequent long distance telephone calls to one another, the telephone company begins to investigate the possibility of establishing extended area service between the communities where by there would be no further charges on telephone calls placed between them.

The first step would be to conduct a series of what telephone people call toll ticket studies. Such studies investigate the pattern of long dis-

tance calling between communities. Toll tickets are the cards on which the place of origin, the destination, the time, duration and date of calls are recorded for billing purposes.

In the case of our theoretical communities, X and Y, the toll tickets which are accumulated at the long switchboards in both, would be studied for one month periods at different times of the year to determine if the customers there were making frequent long distance calls to one another.

On the completion of these studies, the calling patterns are then available to discuss with community leaders and customers to determine their

feelings for improved service. This was done in Stirling and resulted in strong endorsement of this need.

It is reasonable to assume that such an arrangement would probably result in an increase in the monthly telephone rates in both communities. Telephone rates are based on the number of telephones a customer can call without paying long distance charges. The greater the number of telephones the higher the rates. This explains why telephone subscribers in cities pay higher monthly rates than subscribers in smaller towns. They can have more telephones in their free calling area.

Therefore, in the example of communities X and Y, the feasibility of extended area service would depend on whether or not the resulting rate increase was acceptable to the customers involved.

The opinion and acceptance of the customers directly can only be ascertained when the actual date of this potential service could be provided to meet the demand.

Our experience has shown us that when it is made available, the number of calls increases by better than 40 per cent. Therefore, we must be certain that we have sufficient space and equipment to meet this demand.

Stirling studies have indicated that strong interest in Belleville now exists and is continuing to grow. For a year and a half we have studied the required equipment that it will be necessary to provide. But here we must remember that if you can call Belleville, they can also call you. 14,000 customers could avail themselves of this opportunity. When this consideration is taken in to the overall view, the availability of equipment and space in the Belleville office becomes one of the major factors. The building will have to be enlarged and a considerable amount of equipment will be required.

The programming and planning to provide this is not something that can be answered immediately with money costs of today and (what will they be tomorrow?) faced with this large outlay, coupled with the necessity to provide direct distance dialing in the near future, to further improve the services we now provide, will require careful consideration.

It will be provided in the future (near what is near) if accepted by the majority of our Stirling customers by a canvass. This will be done only after the date and rate is fully determined. They would be told why extended area service is a possibility, and exactly what the cost would be in terms of increased monthly rates. They would then be asked whether EAS is acceptable to them.

A while ago, I was talking about Bell Canada's interest in the future.

At the present time, a Bill to amend the Company's act of incorporation is awaiting parliamentary decisions. This bill has been drawn up because of our interest in your future service and of our desire to carry on the role with which we were entrusted in 1880, the year of the Bell Telephone Company's incorporation.

The achievements which we have made in the years leading to 1968 haven't been easy — with a charter prepared 87 years ago. For example, the word "telecommunication" which I have been using tonight to describe Bell Canada's industry, isn't mentioned in that charter. In 1880, we were in the telephone business, but since then, the communications industry has branched out — and we find ourselves in the telecommunication business, consisting of telephone service and transmission data, radio and television.

Industrialists who are also involved in communications, either directly or as suppliers of communications equipment, have voiced their fears that this bill will increase our latitude of interests — to take in the manufacturing of refrigerators and other appliances — or to become a production centre for another television network.

This is conjecture on their part; it is not — nor ever will be, a part of Bell Canada's industry.

Two-way communications, starting with the telephone — and now enlarged to include data transmission and emission — is the business of Bell Canada. In order that communities such as Stirling and Belleville might benefit from progress in telecommunications as much as Canada's larger residential and industrial communities, we have no time to explore the fields beyond.

Ivanhoe W.I.

The Ivanhoe W.I. meeting was held on Wednesday, February 7th, in the Council Room of the Ivanhoe Town Hall while the Hog Producers had their meeting in the auditorium of the Hall.

The President opened the meeting

with the Institute Ode and Mary Stewart Collect. Roll call was answered and the minutes of the last meeting were read and approved. Business was dealt with and it was moved by Evelyn and seconded by Velma, that all bills be paid.

It was moved by Tillie Cooke and seconded by Edna Tanner that the Institute send the Citizenship and Education covenor to the Conference at Guelph this year. It was moved by Tillie Cooke and seconded by Margaret Haggerty that the Institute have a Birthday Box and each member is to put their birthday money in it and it is to be used to buy something for the new kitchen.

Mrs. John Wallace gave a paper on "Synopsis of Canadian Consumers' Magazine".

The meeting was closed and the Institute ladies served lunch to the men attending the Hog Producers' meeting.

Twp. Huntingdon Council Meeting

Huntingdon Township Council met on February 5th, at 12.30 p.m.

Goldie McInroy explained Township Welfare costs. A by-law was passed appointing Kenneth Tompkins Road Superintendent at a salary of \$2.20 per hour; duties to commence February 12th, subject to the approval of the Department of Highways.

Resolutions:

That Kenneth Tompkins be appointed Acting Road Superintendent until the by-law is approved by the Minister of Highways.

That two trips be cancelled from R. Wood's lane snow plowing bill. That all persons owing the Township for services performed previous to 1967 are to be notified that any accounts not paid by March 15, 1968, will be put in the collector's hands.

That we give Stirling Arena Committee a \$200.00 grant.

That Road Voucher No. 2 for \$2134.62 be paid.

That the Clerk write Thurlow Township and inform them that Huntingdon Council have decided to hire

their own Building Inspector.

That the following bills be paid: Madoc Cash & Carry, glass, \$1.06; Leslie Blakely Fuel, \$24.07; Merryvale School, \$528.00; Registry Office, registrations, \$4.20; Olivetti Underwood, repairs, \$10.00; Mr. R. Ellis, ash trays, \$2.63; Clerk-Treasurer's Association, dues, \$5.00; T. E. Eaton Co., rack, \$19.00; Wm. Collins, 3 sheep killed, 1 sheep injured, \$85.00; David Thompson, 1 valuation, \$4.00; Stirling Arena, grant, \$200.00; Welfare, \$358.55.

A delegation from Stirling attended the Council Meeting and requested a grant for the Arena. Also a delegation, composed of Harold Dettlor, Stirling, and Mr. Hook, Peterboro, explained the advantages of a Trent Conservation Authority. Huntingdon has 45 per cent of the Township in the Trent and 55 per cent in the Moira River Conservation Authority.

The next Council meeting will be held on March 4th, at 12.30 p.m.

BULK FEED HAS ADVANTAGES

Are you using bulk feed handling
on your farm, or are you still lugging
bags of supplement and mixed feed?

With today's pressure on farm profit
margins, the extra savings offered
by bulk feed delivery is worth
considering. A great many big feed-
ers have switched to bulk feed, but
many moderate-sized operations could
profitably do the same.

The saving on bag costs alone
amounts to \$4.00 a ton or more. On
ten tons of feed per month, you can
save enough money to pay for a bulk
bin to hold the feed. This doesn't
take into account other savings either,
such as cutting out rodent loss, and
spillage from torn bags to say
nothing of reduced labour.

Interestingly enough, while most
feeders switch to bulk feed because
of the lower price, they soon find this
a secondary reason for using bulk.
The majority of feeders find that by
using bulk feed they can substitute
electrical power for muscle power
and save a good deal of money into
the bargain.

Most new farm bulk feed tanks are
made of steel, although some older
ones may be made of such materials
as plywood or even concrete. While
some are square, a round tank with
no corners to hang up feed offers
fewer problems. Polished steel has
better "slidability" than other materials,
and this helps reduce feed
bridging too. Often it is possible to
install the tank outside the building
with gravity feed to the inside where
you can run it into a feed cart or
mechanical conveyor. One thing to
avoid is putting the tank half inside
and half outside. That way you can
expect condensation problems with
the moisture causing caking and

spillage of the feed.

Some kinds of bulk feed, especially
those containing large amounts of
animal fat may not flow well through
a hopper in the bottom of the tank.
If you use a feed of this type, a small
electric auger is very useful for
emptying the tank.

The Heart Fund: A Unique Health Cause

It is important for everyone to
realize that the Heart Fund, con-
ducted here and throughout Canada dur-
ing February is something more than
"just another health drive".

The Heart Fund is uniquely im-
portant. Essentially, it is a combined
appeal supporting the nationwide

fight against a great complex of dis-
eases and disorders — heart attack,
stroke, high blood pressure and har-
dening of the arteries, rheumatic fev-
er and inborn heart defects, to men-
tion only a few.

Diseases of the heart and circula-
tion, which your Heart Fund dollars
help to fight, are responsible for
more than 72,000 deaths in Canada
each year. That is more than the
combined total, resulting from all
other diseases and causes of death.
In fact these cardio-vascular diseases
account for over 50 percent of all
deaths. The heart problem is no dis-
tant abstraction. Although national
and international in scope, it exists
as a painful and costly reality right
here in this town. If you have any
doubts examine the obituaries which
appear in our daily newspapers. You
will find that our local mortality ex-
perience closely parallels national
figures: that, on the average, about
half our death notices will mention
"heart stroke", "stroke", or "heart
disease". All too often these terms
are applied to family breadwinners
in the prime of life — men in the 45
to 65 year age bracket.

There is only one practical way to
fight heart disease, namely by sup-
porting your Heart Foundation's bal-
anced programs of research, educa-
tion and information. You can do
this by contributing Heart Fund dol-
lars. Truly, the Heart Fund deserv-
es a place at the very top of your
"giving for health" list. Send your
contribution to the Canadian Heart
Fund, 247 Devenport Road, Toronto 5,
Ontario.

Bantams Win Series With Frankford

On Monday, February 12th, the Stirling Bantam hockey team defeated Frankford Bantams in the second game of their playoff schedule to the tune of 11 to 0.

Stirling had control of the puck for the full sixty minutes of play as they had 105 shots on the Frankford goal. This means that Stirling will advance to the semi-finals series against Wellington and the winners between Marmora and Tweed who are presently tied at a game apiece. The first game of the series will be played at Wellington on Saturday, February 17th, at 2 p.m.

The second game of this series will be played in Stirling on Monday, February 19th, at 7 p.m. These are two big games for the Stirling Bantams so turn out in a big way and give them the support they need to play this strong Wellington club.

St. James C.W.L.

The February meeting of the Catholic Women's League was held recently in the Church recreation rooms and opened with prayer led by the director.

The President thanked Mrs. Meeks and her committee for their work and donations on behalf of the children of the parish. Thanks were also extended to those who assisted at St. John's Hall following the Bible Vigil for Church Unity at St. James Church. Members were also invited to participate in the World Day of Prayer to be held at St. John's Church on March 1st.

A copy of the National Annual Report was made available for members' perusal.

Three more card parties are planned for this season.

The pastor proposed a study of St. Luke's Gospel as a Lenten project.

The articles on the subject of Christian education as put forward by the Vatican Council were continued.

Mrs. J. Doran and Mrs. R. LaChapelle served refreshments at the close of the meeting.

New Books At Public Library

The recent innovation at Stirling Public Library, "The Story Hour", has been enjoyed to date by fifty different children, the highest attendance being 35 youngsters on Saturday afternoon. Mrs. Peggy Faulkner, who is in charge, is doing an excellent job with her young listeners and they are reading more books as a result of her interest.

The Friday night films are well attended and enjoyed, and the older children are very helpful, placing chairs and tidying up after the showing. The size of the audience varies, with the average probably being twenty-four.

The Library is to be closed during the last week of February. When we re-open on March 5th, we will be radiantly redecorated and have a new look altogether. If your books come due during this period, they will not, of course, be fined.

We have some new books again and perhaps you really haven't caught up with all our older ones. Some new titles include these books: "Nina's Book", by Eugene Burdick; "Ordeal of Three Doctors", by Eliza-

beth Selfert; "Octopussy", by Ian Fleming; "Elizabeth Taylor", by Elizabeth Taylor; "Mr. Clemens and Mark Twain", a biography; "Caribbean Mystery", by Agatha Christie; "Duluth MongOOSE"; "Case of The Beautiful Beggar"; "Baron and Mogul Swords"; "Cable Car", and others. Light but interesting reading for those cold winter evenings.

We are most concerned that the students who need essay material will not be inconvenienced by the lack of the use of our reference material while the Library is closed. Both schools have been notified of the closing date, and we will be as helpful as possible in the use of encyclopaedia, etc.

The Film Council will also find it necessary to make arrangements convenient to its members and to the film librarian. More complete details will be in next week's paper.

Please take note of the closing date and Happy Reading!

Guide News

The regular Guide meeting held much work and fun for all the girls. Each week some of the girls pass another requirement for their Second Class Badge. They seem to be determined not to slow down until they have earned their Gold Cord which is the highest achievement earned by a Girl Guide.

Next week, February 19th, is our Square Dance Night. Ivy Laurin, the caller-instructor for The Stirling Swingers, is going to direct us for the evening. Since it is confusing for girls to try to do the boys' part in square dancing, 16 gentlemen from the Stirling square dance club very kindly consented to come and help us out. The girls are all excited and we greatly appreciate the kindness of the square dance club.

All the Guides are asked to meet at the Community Hall at 11 a.m. from where we will parade to St. Andrew's Presbyterian Church.

Rebels Extend Loss String

Stirling Rebels continued their downward plunge in the League standings, falling into fifth position, 3 points back of the Frankford Shoemen.

The Rebels, shorthanded again, battled the Cloyne Blazers for nearly 40 minutes, giving up only a single goal on Saturday night, but weariness set in and they dropped a 7-1 decision.

Sunday night, the Foxboro Merchants trimmed them 8-3, the team showing tiredness from the previous night. McConnell scored the lone goal Saturday night and triggered a pair in the Sunday tilt, with Mason also scoring.

Last night, they played with the minimum 9 players and blew a 2-0 lead to the Shoemen, losing 3-2. The Rebels have lost 7 straight, winning a mere 2 in the last 10; those over the tail-end Thomasburg T-Birds.

Stan Olsansky, Local Taxidermist Speaker at Game Club Meeting

There is an artist in Stirling whose light touch brings orders for his products from far away as Nova Scotia. The artist is Stan Olsansky, and the art he has mastered is taxidermy.

Feb. 3rd, Mr. Olsansky spoke to a general meeting of the Lower Trent Valley Fish and Game Club and revealed some of his workings of his art. His main purpose in speaking was to advise the fishermen and hunters on care in the field of game which could be waited for eventual mounting.

As Mr. Olsansky put it, "Too often, the game is ready to hit the frying pan before somebody decides to get it mounted."

The best advice in caring for fish, game and birds seemed to be to leave them alone. Mr. Olsansky warned against the common forms of damage to the three categories of game. Birds that have been shot should have holes and nostrils plugged so that body fluids don't destroy the plumage. Care also should be taken that wings and delicate bone structure are not damaged in taking the bird home. The skinning of fish should also be avoided and under no circumstances should the belly of the fish be sliced.

Both these classes of game should actually be frozen and shipped frozen to the taxidermist. He will then do the expert skinning and send the meat back to the client.

When it comes to big game Mr. Olsansky pointed out that the practice of slitting deer's throats or noses should be rigidly avoided. This, he explained, is often done so that a stick can be inserted for dragging the game out of the bush. Unfortunately, such a procedure makes the taxidermist's job a tough one.

Stan Olsansky was not always a taxidermist — his bread and butter job is as a machinist with Bata Engineering. But in the last few years the demand for his skills has been soaring at such a rate that he will soon make it his full time occupation. Started in Chicago

He got his first taste of taxidermy in Chicago. His family had moved there and at the age of 21, Olsansky found a friend who was a taxidermist. (Continued on Page Four)

Lower Trent Conservation Committee To Meet Thurs., Feb. 29 at Castleton

The formation of a conservation authority for the watersheds of Northumberland County and some adjacent areas is again being considered. A meeting has been arranged to discuss such an organization on Thursday, February 29th at 8.00 p.m. in the Town Hall at Castleton.

When a conservation authority is mentioned, there are always some obvious questions asked such as: What is a conservation authority? What does it do? How much will it cost? These are important and logical questions that must be answered before the people of the area can properly decide on whether or not to form such a body.

There are 36 conservation authorities in Ontario at the present time covering almost all of the southern part of the Province. Of the few areas not in an authority, a number have arranged meetings to discuss or vote on formation of an authority for their watersheds. This area is bounded completely by five conservation authorities. The oldest in the Province, in the west the Gnamarska Region, in the north the Otonabee Region and Crowe, to the east the Moira, and to the south the youngest in the province, Prince Edward Conservation Authority.

The Minister of Energy and Resources Management, the Honourable J. R. Simonett is invited to be the speaker.

An invitation is extended to local Councillors and any other interested persons to attend the meeting at Castleton on Thursday evening, February 29th.

Wellington will play here Monday night.

Senior Citizens

A very happy time was had last Thursday, when over thirty of our kids met. (Years ago) — the stork must have been a busy bird in February — Della Descent, George McMillan, Elizabeth Fitchett and Fred Hensman were part of the load the old bird dumped in this vicinity. "And we are glad he did."

Lil mixed Fred's cake, and Mary Doran and Grace Donohoe had their fingers in Della's cake. They were both finger-lickin' good.

Marion Sharpe, Edna Sharpe and Marie Morton spread a nice lunch. Jean Potter (God bless her) got a recipe from France for a lovely dessert for everyone which was scrumptious. Our thanks to you all girls!

Don't miss next meeting, Jim Holt is on his way with a wov for the programme. His slides are always the best. He is hoping to make it at 3.00 p.m. so be sure to be there. Bring a friend too.

Guide Lines

Last Monday evening the Girl Guides held a very enjoyable square dance party. With several of the Boy Scouts and members of the Stirling Swingers kindly filling in as partners, everyone was able to join in the do-si-dos and allemande-lefts. Many skillful square dancers were discovered among the young girls and boys. (In fact several of the Stirling Swingers were heard to ask, "Now how did they catch on so fast?")

Refreshments were available during the evening for all the thirsty dancers.

Before the last dance, Jill West presented the guest-caller, Ivy Laurin, with a small thank you gift on behalf of the 1st Stirling Girl Guides. Jill also thanked the Boy Scouts and Stirling Swingers for coming to help out.

On Thursday, February 22nd, the Guides will be joining with the Brownies for a Thinking Day Programme. On this anniversary of the birthday of our Founder and the World Chief Guide, each Girl Guide is asked to contribute 5 cents, which she has earned herself, to the World Friendship Fund. Regional Jail Will Be Built

The Quinte Regional Detention Centre escaped a government cutback on spending for 1968-69.

The 3.24 million dollar jail, to be built just north of Napanee, is "in the tender stage," an official of the Department of Reforms and Institutions said.

To his knowledge, the program has not been postponed, although a regional detention centre in the Niagara Falls area has been delayed.

The province, which assumed the cost of building the jail for Hastings, Prince Edward, Frontenac and Lennox and Addington Counties, has postponed 43.5 million in programs.

Several Local Teachers Attend Toronto Conference

Four hundred and fifty teachers from all over Ontario attended the annual February Conference of the 25,000 member Federation of Women Teachers' Associations of Ontario in Toronto, February 16-18. Teachers attending from this area were:

Mrs. R. B. Bell, of Stirling Public School; Mrs. Gladys Sine, Foxboro Public School; Miss Linda Stillman and Mrs. D. W. Rodgers, Marsh Hill Public School.

Theme of the conference was "Crisis!", and delegates heard speakers on a wide range of subjects of current concern. The Canadian Panel of Women, five women representing different racial groups, spoke from personal experience about the subtle, dangerous forms of race prejudice which are to be found in Canada.

Larry Henderson, noted Canadian broadcaster and writer, talked about the international situation with emphasis on the war in Vietnam. Scott Young of the Toronto Globe and Mail spoke on the subject "Crisis: Canada."

A panel discussion took place on the theme of the restlessness of youth, with moderator Percy Saltzman of the CBC, and participants Toronto Controller Allan Lamport, Tim Reid, MPP, Tom Faulkner, President of the Students' Administrative Council, University of Toronto, and Stewart Goodings, Associate Director of the Company of Young Canadians.

Father Gregory Baum, distinguished Roman Catholic scholar, spoke on the question "Can the Churches Ad-just to a Changing World?"

Stan Olsansky

(Continued from Page 1)
During his three year stay in Chicago he learned many of the ins and outs of the art.

Back in Canada in 1953, he started his work as a machinist and for hobbies turned to fishing, hunting and lots of flying. The flying proved to be too expensive however, and he

took to taxidermy once again.

He was living in Stirling at the time but decided to find out the real art of taxidermy by taking a correspondence course with a United States school.

He passed the course with flying colours but was not ready to sit on his laurels. At the time, mounting was being done with plaster as the base for mounted game and the weight of some jobs was enough to pull a wall down. In addition, many hunters were skinning game in the field but not leaving enough hide around the head to do a proper mounting job.

For this reason, Mr. Olsansky turned innovator and came up with his plastic molds. The molds were extremely light yet strong, and gave Mr. Olsansky a greater control in making the game look lifelike.

Another facet of taxidermy that Mr. Olsansky has mastered is the chemistry involved. He points out that some taxidermists are good technicians but are not really familiar with

what goes on when skins or feathers are preserved and prepared. This facet is especially important when it comes to mounting fish, and the taxidermist must be a painter to boot so that colours will be realistic.

With success looking on the horizon, Mr. Olsansky looks confidently to the future and his biggest problem is keeping up with the backlog of orders that clutter up his workshop. With the orders from the deer and duck season just barely caught up with, the fishing season is about to open, and Stan Olsansky will again be burning the midnight oil in Stirling.

Numerous Projects Underway

President Bert Scobie, Stockdale, chaired the meeting. Several projects are underway at the Club Farm, north of Frankford, which include the construction of a fireplace in the upstairs room of the clubhouse and the digging of a new duck and goose pond. Much of the work is being done by the members in their spare time during week ends and evenings.

Jehovah's Witnesses To Hold Regional Assembly

Mr. Harry Wellman, Frankford, will be travelling to Belleville this week end to attend a regional assembly of Jehovah's Witnesses. The Wellman family will be a part of a delegation of 27 from the Frankford area.

Mr. Wellman serves as an Assistant Ministerial Supervisor in the local

congregation. "But this does not interfere with my responsibilities as a father and breadwinner," he said. "Rather, it makes me more aware of my obligations as head of the house."

The theme of the assembly is "Walking Orderly by Spirit."

The assembly's feature speaker is Montague Mals, of Toronto. He will give the public talk Sunday afternoon entitled, "Will God Intervene in Men's Affairs?"

My Earthly Home

I'm growing old in years, dear Lord,
Some days are very long;
The early days are past and gone,
And now the eventide has come.

Happy memories of the past
Come to me more and more
Those good old days — they could
not last
And soon will come the time to meet
Loved ones on the other shore.

The colour on the head has changed
And eyes are growing dim;
The heart that once did beat so
strong
Is weakening now within.

My limbs are getting shaky now,
They do not take, as in the past;
The foundation is not so steady
And will not always last.

I'll keep this old house lighted up
With God's own Love and Care
And then some day I'll meet with
joy
With friends and God up there.

We will not fret to see this house
Grow weaker, day by day,
For in that place where Jesus dwells
We can forever stay.

many factors, especially the cause, says the Ontario Medical Association. For example, certain cases of severe high blood pressure are due to tumors of the adrenal glands. With the removal of the tumor, the blood pressure returns to normal. Certain abnormalities of the heart or major blood vessels can be the cause of hypertension, and with correction of these conditions, by surgery for instance, the blood pressure in many cases returns to normal.

If the high blood pressure is due to severe and chronic kidney disease, the outlook is not so good.

In other words, in some cases high blood pressure is not a disease in itself but a symptom of some underlying condition. All cases of hypertension have to be considered individually. Complete physical examination must be carried out, with any necessary diagnostic procedures such as electrocardiograms, x-ray for heart size, and kidney examinations. Only after a complete assessment of the individual case can the doctor make a definite diagnosis, prescribe proper forms of treatment and make a reasonable prognosis or outlook for that particular case.

It's sure nice to have a hand with the chores — even if the helpers do get a little surly at times. Fortunately, Granny is capable of handling any situation. BELL LINES

Congratulations to the Stirling Chamber of Commerce on your program for community improvement for 1968. During my visit to your annual meeting, it caused me to reflect the involvement and the number of interested citizens that you have in the Stirling area. The size of any community still requires that co-operation and interest be paramount to produce progressive living and you appear well endowed.

Have you ever spent unnecessary, frustrating time searching around through stacks of old papers, coupons or matchbook covers for a telephone number that you wanted to keep and now need? Then, sometimes, if you're lucky, you find it written on a crumpled grocery list or envelope panel? Well, I know an easy way to keep all those important numbers all in one place and close to the phone. We've redesigned our handy booklet in which you can keep all your telephone numbers and it's called the Personal Directory. It's smart and modern looking and though compact in size, it's large enough to hold all the numbers that you call frequently. It has space for names, addresses, Area Codes and telephone numbers. Just inside the front cover is a special spot for emergency numbers. And, we've included space for important dates you want to remember, such as birthdays and anniversaries. I'd like you to have your free copy for I'm sure you will find it as convenient as I do. Just call our Business Office and we'll be happy to send you one — or two if you need them.

And, while I'm talking about telephone numbers, perhaps it's the right moment to include a reminder of a special number list. When you're going out for the evening, here are a few suggestions that may help you and the baby sitter relax. Take a few moments to write down the names of the places you are going, and the phone numbers, and the approximate times you'll be there. Have emergency numbers, including the family doctor's written down, too. Chances are, the baby sitter will never need to use the list, but you and she know it's right beside the phone if needed. Having taken these precautions, step out and have a relaxing fun-filled evening.

"Let us think about Prayer." Several "Lord for Tomorrow and its Needs I passages from the New Testament Do Not Pray." Mrs. H. Elliott was concerning "prayer" were given by Mrs. W. Kellar, Mrs. E. Broadworth and Mrs. S. Kellar. The Lord's Prayer was repeated in unison.

Mrs. D. Heath conducted the business session. The members are invited to another quilting party at Mrs. S. Brady's home. There will be another pot luck dinner on March 21st. It will be our turn again to cater at Hoard's Sale Barn on April 1st. The meeting read a poem and closed with the hymn closed with the benediction.

Mrs. H. Elliott gave a short but interesting resume of the last session of the Annual Meeting of the UCW held recently in Stirling. Mrs. S. Kellar read a poem and closed with the hymn closed with the benediction.

Rebels Break Slump

Rookie Glen Spencer proved just the medicine the doctor ordered for the slumping Stirling Rebels over the week end, stealing the show in both of the Rebels' victories in a twin-bill with the seventh place Wallbridge Warriors.

The Rebels first win came Saturday night as Spencer pumped home four goals and assisted on one. Line-

mate Don Potts blinked the light twice while Doug McCrory and Gary Mason also scored. Another rookie, Barry Marshall, scored twice for the Warriors with Casselman and Gary Ray also scoring.

Sunday night the Rebels had a battle on their hands and it took a third period tally by Spencer to break a 2-all tie and clinch fourth place for the Rebels. Don McCrory and Gary Mason had given the Rebels a 2-0 lead before a pair by Read.

Other week end scores — Ivanhoe

12, Cloyno 5; Frankford 10, Foxboro 5; Foxboro 10, Thomasburg 3.

Playoffs Start Thursday Night

The Rebels now meet the Ivanhoe Knights in a best four of seven set in the "A" series, slated to get underway in Madoc on Thursday night with a return clash slated for Stirling on Sunday at 7 p.m. The Knights have lost but two games all season, one to the Rebels.

At Foxboro Boy Scout Church Service

On Sunday, February 18th, Mr. and Mrs. Joe Irish attended the Scout and Cub church service at Foxboro United Church. The service was taken by the minister, Rev. R. Parsons.

During the service Joe Irish, District Commissioner, presented Rodney Blakely, Foxboro Troop, with a letter from Deputy Chief Scout Mr. Harvey that Rodney had been awarded the Silver Cross for his prompt and gallant action in swimming to the rescue of a boy who was in trouble this past summer. He was also presented with the ribbon that goes with the cross.

Rodney will go to Ottawa at a later date when His Excellency the Governor General of Canada will present the cross to him.

Laurel Rebekah Lodge News

Monday evening, February 12th, two carloads of sisters visited Queen of Sheba Rebekah Lodge, Nanapanee, to attend a school of instruction conducted by the Assembly President, Sis. Marjorie MacLean. As this was a regular meeting there wasn't a special question and answer period, but Sis. Marjorie did answer as many questions as time allowed. Following lodge a delicious lunch was served.

On Tuesday evening Laurel Lodge held its regular meeting with a good attendance. Following lodge a lovely lunch was served downstairs by Sisters Irene Hogle and Dorothy Summers. Sister Mickey Johnson thanked the lunch committee. After lunch degree practice was held.

Friday evening, February 16th, a busload of Laurel sisters went to Quintana Rebekah Lodge, No. 133, Belleville. This was a special meet-

ing to entertain the Assembly President on her official visit to Belleville District No. 4. At this meeting the degree team of Laurel Lodge, under the direction of Degree Captain Sis. Nova Vandervoort, conferred the Rebekah Degree on two candidates.

The Assembly President's address was brief but very inspiring. Her motto for her year is "Peace, Harmony and Prosperity." If we have peace and harmony in our lodge, we will have prosperity. She praised the Laurel sisters highly for the dignified manner in which the degree was carried out.

At the close of this meeting a banquet was held in the dining hall. Noble Grand Sis. Verna Woodbeck, thanked the committee on behalf of all present.

Frequency and Cost of "Third Party" Accidents

The following figures compiled from material supplied to Superintendents of Insurance, shows the frequency and cost of "third party" accidents for various classes of drivers. The figures represent damage to other cars or property. They do not reflect the cost of damage to the driver's own car.

The figures are collected on a cross Canada basis and represent the years 1964, 1965 and 1966.

These figures show that:

— A car which is driven to work is, on the average, 20 to 30 per cent more likely to cause an accident than one which is not driven to work.

— A car which is driven by a person (or family) who has had an accident in the past year is 30 to 70 per cent more likely to cause an accident than one driven by a person who has not had an accident for three or more years. The accident will cost, on the average, up to \$135 more.

Stirling and Marmora Secondary Schools Will Be Closed End of June

Secondary Schools in Stirling and Marmora will be closed and students will attend classes in Belleville and Madoc.

The move, involving 312 students, comes into effect next September. James Clarke, Chairman of the Bay of Quinte High School Board, said Friday morning that two units will be sold to Hastings County Area Number Two Public School Board for use in the elementary school system.

The decision to close the schools was inherent in the amalgamation of the Bay of Quinte, Stirling-Rawdon and Centre Hastings High School Boards last year.

Mr. Clarke said about 100 students will travel to Centre Hastings High School at Madoc and the remainder are expected to attend Centennial High School in Belleville.

"The Stirling and Marmora schools were not operating at capacity and the public school board needed the extra space," he said. "The sale of the schools will provide economies for the secondary school board and will also make available the widest range of educational opportunity to the maximum number of students at the lowest possible cost."

At present none of the schools involved in the change is operating at capacity.

The nine-room Stirling unit has an enrolment of 130 and a capacity for 260 students. In Marmora the nine-room school has a capacity for 260 students. The present enrolment is 122.

To make way for the extra students, the secondary board is planning an addition to the Centre Hastings High School in Madoc. The 26-room unit may be expanded to handle 1,200 students — an increase of 600 pupils.

The cost of the new addition is estimated at \$2,000,000.

Mr. Clarke said the board is discussing the use of temporary portable classrooms to handle the increase in student population.

"The closing of the units in Stirling and Marmora will save the board about \$30,000 per year and will also make way for a composite school in Madoc."

Another factor in the secondary board's decision was the announcement by Loyalist College that it would erect temporary quarters for classes next fall.

"This gives us the space at Centennial School to handle the Stirling students," Mr. Clarke said.

Loyalist has been renting classroom space at Centennial Secondary School from the Bay of Quinte Board.

Mr. Clarke said it was important to note that a major factor in the move was the desire of the public school board to provide an updated program to the elementary students in the Hastings Two Area.

"The two schools at Marmora and Stirling will provide them with the facilities they require at a cost lower than the cost of constructing new units."

The board chairman said he hopes the present staffs of the two schools will continue to work in the Bay of Quinte system.

Local Residents In Hospital

Several Stirling and district residents are patients in Belleville General Hospital. They include: Mrs. Grant Montgomery, Arthur Loucks and Arthur Scott, of town, and Mrs. Mary Vandervoort, R.R. 4.

Patrick Long, young son of Mr. and Mrs. Bill Long, has been transferred to Kingston General Hospital.

March of Dimes Nets \$404.01

Mrs. Basil St. Pierre, Campaign Manager for the local March of Dimes Fund, has announced that \$404.01 was donated to this worthy cause. She would like to express thanks for this generous response and to all the volunteer canvassers for their help.

"At Home"

Mr. and Mrs. Fred G. Kent, Belleville, R.R. 2, will celebrate their 60th wedding anniversary at their home with Mr. and Mrs. Walter Savage, 4th Concession Sidney and Wallbridge Rd., on Sunday, March 3rd, 1938, from 2 to 4 and 7 to 9 p.m. Friends, neighbours and relatives are invited to call. No gifts please.

Bereft of Brother

Sympathy is extended Mrs. Leonard Wannamaker, Frankford Road, Stirling, in the sudden death of her brother, the late Arthur Roy McMullen, who passed away at his residence, 754 Parkdale Street, Kirkfield Park, Winnipeg, Manitoba on Wednesday, February 23rd. He was in his 43rd year. Mrs. Wannamaker left Toronto International Airport by plane on Wednesday night to attend the funeral service.

Entered Into Rest

JAMES ALFRED LIVINGSTONE
The funeral of a former Stirling resident James Alfred Livingstone was held Friday, February 23rd at the Duffin-Hogle Funeral Home, James St. Rev. J. Bruce Small officiating. Entombment was made in Stirling Cemetery Chapel Vault.

Mr. and Mrs. Harry Niles, Jr., of Holcomb, N.Y., and Mr. and Mrs. Geo. Livingstone, Rochester, N.Y., were in attendance at the funeral.

Wells Ford Mercury Sales Ltd. Host To Dance

Wells Ford Mercury Sales Limited were hosts to a well attended dance at the Community Hall on Friday night. The event was the wind-up of the celebrations of the opening of their new car showroom. Music was provided by Tom Christie's Orchestra, Campbellford.

Senior Citizens Gossip

There were about twenty-five voices of assorted sex (all going at once, that is), until Iva, Gertrude and Lillian showed up with a lovely lunch. This slowed down the chatter but another uproar was heard when President George announced that at the next meeting the lunch would be furnished and served by the "widowers". This should be a dilly, and another feature will be the showing of the Rose Bowl Parade, Boulder Dam and many other places of interest taken down California way by Jim Holt on his holiday this winter. The Rose Bowl Parade alone warrants a good audience, so come along and bring some friends.

Vice-President Fred and President George played to a draw in checkers. Fred accused George of segregation because he insisted on always having the WHITE men.

George attempted to hang the USCO certificate and was about to drive the nail, when he discovered the head was where the point should have been. He called out to Buttimer, "Get me another nail, this one is for the wall back of me."

Wise old Buttimer turned the nail and taking the hammer, hung the framed certificate to the wall. He can show you a lot of tricks yet, George.

Padre Crook wanted to know if you used plaid thread to darn plaid socks. As no one knew he said "well never mind, I don't think they are worth a darn anyhow."

An evangelist recently announced there were 726 sins. He is being besieged with requests for the list — mostly from people who think they must have missed something.

EIGHTEEN SMALL PUBLIC SCHOOLS WILL BE CLOSED

Eighteen one-room and two-room schools in Central Hastings County will be closed next September.

The move to close the units follows an announcement Friday, February 23rd that the Hastings County Number Two Public School Board will purchase secondary schools in Stirling and Marmora.

The decision will affect between 500 and 650 elementary students attending the one-room and two-room units in Rawdon and Huntingdon Townships.

They will travel to schools in Marmora, Stirling and Tweed.

Public School Board Administrator Cliff Cotton said an addition to a four-room school in Marmora is also planned.

No renovations on the two new schools are planned for the present time, noted Board Chairman Herbert Cox, although some changes will have to be made in the future.

The new classroom space will be used for senior public school students.

Eleven one-room schools in Rawdon Township and another four in Huntingdon will be closed when the new set-up takes effect. Three other two-room units will also be closed.

The purchase of the Stirling and Marmora schools is subject to the approval of the Ontario Department of Education.

Stirling Rotary Club Annual Winter Carnival Outstanding Event

Stirling Rotary Club's Annual Winter Carnival at Oak Lake on Sunday afternoon was an outstanding success. The weatherman was on his best behaviour and over a thousand people flocked to the lake to enjoy the programme of events.

Scuba Divers Popular Event

The Quinte Aqua Scuba Diving Club held their winter dive at the lake. Seven members of the club donned their gear and dove into the icy water through a six-foot square hole.

Those taking part were Terry Armstrong, Dennis Armstrong and Don Armstrong, of Stirling; Dennis Kent, Bayside, and Bill Hayes, Dick Hayes and Jim Maybee, of Belleville. These fellows attracted a lot of attention and it is hoped that they will be back for next year's Winter Carnival.

Snowmobile and horse-drawn sleigh rides were available and they did a rushing business all afternoon. Several enjoyed skating on the areas scraped clear of snow.

SNOWMOBILE RACES

Another feature of the day was the snowmobile races, under the auspices of the Snowdrifters Snowmobile Club of Stirling and District. The various races were watched by a good number of spectators and several close races were witnessed. The complete list of winners of the various races may be found on page eight of this issue.

The food canteen did a thriving business, serving hot drinks, hot dogs and hamburgs all afternoon.

The Winter Carnival was an outstanding success and already members of the Rotary Club are talking about next year's Carnival and discussing ways of improving this event.

Guide News

The Girl Guides have a busy week ahead with every day involved with making candy, bagging candy or selling candy. Our Girl Guide Candy Sale is this Saturday, March 2nd. We hope everyone will be expecting us at their door sometime on Saturday (unless we run out of candy). With only 14 Guides we each have to make a lot of candy in order to have enough to sell. However a few interested supporters have volunteered to make candy for us. This will help to supplement our supply.

Each week the Guides accomplish a little bit more towards their Second Class Badge. For next Monday night they are to know "how and where to get police and doctor" and "know their community well enough to give accurate directions for transportation, points of interest, etc." All of this training makes the girls better able to be of service to their community.

The newest topic of interest right now is Guide Camp. We hope there will be enough girls able to go to warrant a camp this summer. The fellowship and experience gained through attending Guide camp is invaluable to the girls. If as many are able to go as became instantly excited at the mention of it, I'm sure we'll have enough.

That's all for this week. Keep smiling!

Dollars and Good Sense

by WILLIAM J. MARTIN

This column is a regular weekly feature prepared by the Family Financial Counselling Service of the Avco Delta Corporation, P.O. Box 2820, London, Ontario. All questions submitted to the above address will be answered, in print or by return mail. Names will not be used in print. However, all questions should be accompanied by a complete name and address.

QUESTION — Dear Sir: I got married recently and both my husband and I are working. Between us we have a pretty good income — enough, in fact, that we could afford to live in a nice home of our own. My husband is acting very proud and insists we live within HIS income. Don't you think he's being very old-fashioned? —Mrs. B.D.L.

ANSWER — At the risk of offending the entire membership of the Loyal Order of Working Wives, I have to say that your husband is a very practical man. The income you contribute undoubtedly makes it possible for you to buy things you couldn't otherwise afford. You can take vacations that without your income would be beyond your reach, and you can lay aside a neat little nest egg for those times in the future when extra money will be a necessity and not a luxury. But don't make any long range financial commitments dependent on your income. Don't plan on that income for longer than six months ahead.

Why? Well, primarily because of the possibility that a visit from the stork will cut off that income. Anticipation of his visit should be a happy experience and not one in

which the prospective parents are in a turmoil, wondering how they are going to meet the additional expenses without benefit of a substantial portion of the income they have come to rely upon. And by the way, if you really want to put that income of yours to good use, why not set it aside for the stork's visit? In the meantime, a husband as practical as yours will surely climb the ladder of success rapidly and before you know it, you'll be in that home of your own — on a safe and sound financial foundation — and perhaps with a nursery.

QUESTION — Dear Sir: I'm new in town and new on the job. In the past I always paid cash for the things I bought. Now I find I can't buy on credit because I don't have a credit rating. How do you get a credit rating when you've never used credit? —NEWCOMER

ANSWER: Someone is going to have to take a chance on you. I suggest you apply for a small loan at your bank or a local consumer finance company. When you get it — and we're pretty sure you will — make your payments, regularly and promptly. After that your credit is established and you're welcome in any store in town.

Chatterton W.I.

The February meeting of Chatterton Women's Institute was held at the home of Mrs. John Schofield with 11 members and 1 visitor present.

The president opened the meeting with the Institute Ode, followed with the Mary Stewart Collect. Roll call was on a discussion on the price of the past and the present.

Mrs. Lucella Carson let her name stand as delegate to the convention, held in Guelph. An invitation was received from Foxboro to enjoy a social evening with them. Mrs. G. Irvine gave the financial report in the absence of the treasurer.

Mrs. Carson, acting convener for Mrs. Nora Prest, who prepared a paper on "Housekeeping at Hastings Manor," which was very interesting. All joined in a song, "The W.I. Carol."

Mrs. Gerald Irvine, District President, gave her annual visiting address. Her theme was the History of the Women's Institute, which was enjoyed by all. The meeting closed with the benediction and the hostess served a dainty lunch.

January Meeting

The January meeting was a pot luck dinner held at the home of Mrs. Lorne Reid. Thirteen members and five visitors were present for the dinner.

A short meeting held in the afternoon carried on in the usual manner. Roll call was sing, say, play or pay.

A Certain Formula For Your First Million \$\$\$

(By Pastor W. D. Kenna)

Many aspire to accomplish great and mighty things, but less than ten per cent achieve their goal.

There is a sure formula to success and prosperity. A man named Abe, proved it successful. He attained great riches, plus great peace and contentment.

This book of statutes shall not depart from my mouth — (If you don't want success, now is the time to stop reading) — but I shall keep them in my thinking all day and during the night. (You still have time to stop reading). I will keep them before me in all that I do, and I shall never depart from them. (You have just entered the first door to success). Then shall I prosper and deal wisely and have good success. Joshua 1:8 (trans.).

Solomon was the richest man ever to grace the Israeli throne. Here was his secret, yet millions have missed it. My son, do not forget my law or teachings and keep the commandments with all your heart.

It is rather significant, that every-time Israel departed from the laws of God, they discovered it was a costly way. It not only cost them their land, but also their lives. World War II is a prime example of the cost of disobedience to the word of the living God.

God promises you and I success if we keep his statutes, but if not you are at the mercy of the elements, and all that disaster may bring.

King David declared, "Oh, how I love the law! It is my meditation all the day" — (Here is the clincher) — "I lay up Thy word in my heart".

You too can be wise as a king — David proved it to be true, and Solomon followed his Father's advice, and was even more successful.

Try it and see — and marvel at the outcome.

To Hibernate or Migrate

As he grows older, man is less likely to celebrate the season of Winter. If he can afford it, he jets South. When he can't migrate, he tends to hibernate. The only outdoor activity for many is snow-shovelling.

What is the right type of exercise for adults? Can too much exercise cause heart strain? Answers to these and other questions are in the booklet "Get Fit — Keep Fit", available from the Queen's Printer, Ottawa.

While many will hibernate, hundreds of thousands of Canadians will ski, figure skate, snowshoe or just tramp through the woods to enjoy Winter at its best.

Preseason conditioning exercises, tips on the selection and care of ski equipment, skiing tips for the beginner and pro can be had in the illustrated booklet, "Ski — Fun for Everyone", from the Queen's Printer.

Heading of complaints often brings improvement to our product or service. There is a difference between the nasty cracks of a chronic griper, and the honest claims of dissatisfaction made by a reputable person, but few managements are capable of differentiating between them.

Timber can be a Valuable Farm Prod.

In wintertime, our farmers often cut logs and other forest products. But not all of them pay enough attention to good cutting practices, and not all of them obtain full value for their woodlot products.

When it comes to cutting, a farmer who is in doubt as to what method is best for his woodlot would be well advised to consult an experienced neighbour who is managing woods competently or phone or write to the nearest Department of Lands and Forests office and ask for advice.

The Ontario Department of Lands and Forests is keenly interested in

any work our farmers are doing in their woodlots and are glad to send out literature dealing with woodlot management. If required, a Forester is available to walk with the owner over the woodlot and discuss how the best care can be taken of the forest and how to preserve its capacity to grow good timber in perpetuity. Here we point out that a forest should be considered a living thing. By abusing it you can destroy its productivity and you can in no time turn a good forest into a useless jungle, growing weeds, weed trees and thorn-bushes. The country around Belleville and Kingston abounds in such sad, devastated woodlots.

Now a few words about marketing woodlot products.

Before starting with the cutting, a reasonable woodlot owner makes sure that he will be able to use or sell every stick of timber he will be cutting.

A man who cuts the timber first and looks for markets afterwards is not much better than a man who kills his livestock first and then rushes around looking for buyers who might be willing to buy the meat. Very often no one is in any hurry to take the meat off his hands.

And before he sells his logs, poles, pulpwood, firewood, a woodlot farmer should observe a few general rules. Sale agreements should be in writing, and in some cases even drawn up by a lawyer.

OF MANY THINGS

By Ambrose Hills

GREEN THUMB MAGIC

Because I am a greenhorn farmer, in search of ways and means to improve our crops, I visit countless farmers in the Fraser Valley. I have bumped into many who have green thumbs; they can take a sickly-looking plant or seed, heel it into ordinary earth — and up it comes, pulsing with life, bearing rich fruit. I, to my sorrow, can take the healthiest looking plant, gently place it in the earth, fertilize the beejapers out of it — and it falls over dead!

So I have been hunting for the secret of the green thumb crowd. Yesterday, however, I talked to a dear little old lady who has the reputation of growing a sumptuous garden on a rocky, unpromising hillside. I showed her my ten thumbs and implored her to turn one of them green. "What is your secret?" I asked.

She blushed and shrugged. Then she said, "If I told you, you'd say I am daft."

"Not I," I said, and solemnly crossed my heart and spit my death.

"Well," she said sheepishly, "I'll tell you what I do. When I put a plant in the ground, or a seed, I say a little prayer. I have a picture in my mind of what I want it to become — either sturdy and fruitful, or delicate and beautiful. It seems to work. I guess the Good Lord blesses it or something. Now — you do think I'm daft!"

I assured her I think nothing of the kind, and I meant it. I'll do anything to get my garden to grow. And this morning, in the Vancouver public library, I found a book by a gardener of some considerable fame. That author came up with the same story — he says a prayer when he seeds his garden, and he pictures it growing just the way he hopes it will.

So I invite all of you to give it a try when Spring comes around. And when you are down on your knees in the garden, saying prayers for those seeds, how's about adding a short little prayer for this Greenhorn Farmer?

THE GOOD DRIVER

The turn of the year inevitably reminds us of time. Looking back, we think of time we used profitably — and time we wasted. Time that brought strength and maturity; or time that has robbed us, irreplaceably.

Usually we think of the past year in terms of highlights. What it gave, and took from us, noticeably, substantially or dramatically. We do not think enough, perhaps, of what time did for us quietly, in the background. Of the profits received from seconds and hours wisely invested in everyday activity.

Sensible drivers were among those who drew dividends in 1967 from investments of time. They took their profits in safety, and savings. They used extra minutes to do the things that increased their chances of coming through the year without collision or traffic summons. Big things like giving the car a complete over-

haul. Or little things like cleaning off the windows, checking the tire pressure, putting on headlights in a rainstorm, using a hand signal for a left turn into a driveway, giving up the right of way to a bus.

A very worthwhile resolution for 1968, says the Ontario Safety League would be to give a little extra time to every phase of driving, and car maintenance. Be glad to invest the necessary minutes to ensure that your car is in the best possible shape for the job it has to do. And invest a little extra time when at the wheel, so that you make each trip more relaxed, with more protection, more economy.

Time is precious only when it is being well used. Never try to save time at the expense of safety. Every second is important in a moving car. In one second at 30 m.p.h. a car travels 44 feet — and lots of things can happen in 44 feet. Invest in your driving all the time it needs.

Mt. Pleasant U.C. Women

This Unit, henceforth known as "Faith" Unit, met in the Church on Tuesday afternoon, February 20th, the attendance being exceptional.

Mrs. C. Clancy, as hostess, greeted the ladies on arrival.

Mrs. George Carlisle, the President, opened the meeting appropriately and all joined in singing a hymn, suitably chosen for the name recently adopted.

After prayer, Mrs. Carlisle conducted the business first, with reports from the Secretary, Mrs. V. Richardson, and Treasurer, Mrs. J. B. Hough. Programme convener, Mrs. H. Donnan, distributed copies of the yearly programme, as well as those of the General U.C.W. Mrs. Ross Bush thanked the women for splendid assistance at the time of the Presbyterian meeting and the Father-and-Son banquet. Supply secretary, Mrs. M. Ayrhart, asked that used nylons be brought for shipment to Korea. Mrs. E. Warren stated that there were booklets on "Stirling" still available and that the proceeds had been encouraging.

Announcements
The World Day of Prayer is to be held in the Anglican Church the afternoon of March 1st. The March meeting will be in charge of Mrs. R. Rose as leader; Mrs. W. West, as hostess and Mrs. M. Ayrhart has the mission study; Callers will be Mrs. R. Duff and Mrs. W. de Jong.

Devotions
Mrs. W. Fitchett and Mrs. W. Harlow led in the worship service, opening with a short sing song of one verse and chorus of three familiar hymns, "Wonderful Words of Life," "Count Your Blessings" and "Jesus Keep Me Near the Cross."

Mrs. Harlow read the Bible lesson from Matthew 25, making comments thereon. Mrs. Fitchett read an interesting article which compared life to a puzzle, whose separate pieces, when finally put in place, worked out for good in the complete picture of life. In closing she read the following verse:

"There never was a day so misty and grey,
That the blue was not somewhere above it.
There is never a mountain so bleak,
That some little flower does not love it.

"There is never a night so dreary and dark,
That the stars are not somewhere shining.
There is never a cloud so heavy and black,
That has not a silver lining.

The offering was gathered by Mrs. F. Wood and Mrs. E. Warren and was dedicated by Mrs. Fitchett.

**Panorama
of the Bible**

This is the name of the Bible study for the year for which Mrs. V. Richardson gave an outstanding introduction, speaking particularly of Amos as reviewed in the first few chapters of the book.

Amos was a farmer of Judaea called

ed by God to be a prophet to his generation. Though he was termed a Lesser prophet, yet in his sincerity and honesty, he brought an urgent message of the greatness of God and Divine Justice. He was the first to interpret God's rule over the universe — a God holy and righteous, who did not tolerate sin and injustice. A God, not only of Israel but of the entire world, and as such, would judge all nations, playing no favourites. The idea Amos had of God was not small or dated.

Today people give strange answers to the questions, How do you think of God? How great is your god? Do you think of Him as a grand old man, benevolent and kind? Or is He a sort of resident policeman, watching our every move? Is He a God of energy and wisdom of today's atomic age — a living contemporary God? One who sets his mark of approval on our nation, our achievements, our way of life, our form of worship with a special set of rules for North America?

Or do we believe, as Amos did, that God controls all forces of nature and rules the universe? Do we believe that modern nations may be instruments under His control and finally subjects to His sovereign will?

This is time of change from national pride into a world outlook. It is a time of thinking more in world terms and helping to plan and build a united world. To this, Amos might echo a fervent "Amen."

At the close of the study, Mrs. Carlisle thanked Mrs. Richardson and closed the meeting with a few helpful words. All joined in the Lord's Prayer.

After refreshing tea, Mrs. Harlow expressed appreciation to the February committee for the splendid programme and lunch.

Ontario Revolver Assoc.
Trophy Presented to O.R.P.

Ontario Revolver Association shooting awards were presented recently to uniformed members representing the winning district in the Forces annual In-Service Training Shooting Programme.

Before a gathering of General Headquarters Staff Officers in Toronto, Commissioner E. H. Silk presented the Forces permanent O.R.A. Trophy to No. 9 District Superintendent D. E.

Wellesley, which is held in the temporary custody of the winning District. Mr. R. Waldon, Executive Vice-President of the Ontario Revolver Association, presented the district plaque to Provincial Constable D. E. Reaker, of the Kalarad Detachment and B. S. Adamson, of Belleville Detachment. These men were selected to represent the 35 marksmen of No. 9 District who shot a perfect score of 120 each.

These trophies are awarded annually for the highest average score obtained collectively by the members in one of the Forces 17 Districts or General Headquarters in a Force wide competition.

No. 9 District comprises eight detachments located at Bancroft, Sharbot Lake, Madoc, Kalarad, Kingston, Napanee, Belleville and Picton.

At Madoc Detachment there were seven officers who obtained perfect scores — Cpl. M. W. Schultz, Constables D. A. C. Bjorndahl, D. L. McMaster, R. B. Lawrenson, J. E. McCormick, R. V. Bonter and E. W. Brown. All of the personnel at this detachment qualified for their revolver arm badge but other than the preceding seven listed, the remainder fell just short of the perfect score.

SEE THE
BETTER IDEA
CARS NOW!

The 1968 Ford. Quiet. Strong. Beautiful.
A great road car.

The 1968 Ford: the newest expression of the Fords that showed themselves astoundingly strong, wonderfully quiet—test after test, drive after drive. Back in 1965, Ford showed itself even quieter than a Rolls Royce... in 1966, Ford showed its quiet strength against the finest European luxury cars... in 1967, Ford showed its rugged durability conquering the steep steps of the Los Angeles Coliseum. Now in 1968, the new generation Ford is, more than ever, a great road car.

Every one's a beauty too: the formal, elegant 2-and 4-door LTD's. The racy convertibles. Luxurious wagons. A spirited new fastback that seats six. And behind the good looks, better ideas: power disc brakes, rear window defogger, 7 position tilt steering wheel, "no headlight" headlights (neatest disappearing trick of the year), AM Radio-

StereoSonic tape system and lots more. So many features, in fact that your '68 Ford is almost custom outfitted for you.

Ford's new improved SelectShift transmission (works both manually and automatically) puts three speeds into action, for greater flexibility and livelier performance with Ford's new V-8 engines. V-8's from a brand new 302 CID powerplant... all the way up to the rugged 428. For snappy performance plus six-cylinder thrift, there's the 240 cu. in. Big Six.

Try the 1968 Fords. Quieter because they're stronger. Stronger because they're better built. And beautiful. Great road cars.
